RACE COURSE DECORATION

»»» MATERIALS NEEDED: Sturdy paper (such as cardstock), string, tape or glue, and scissors* **»»»**
*Kids, ask a grown-up for help with scissors!

STEP 1 Cut out both START strips (page 1) along the dotted lines, then connect the ends with tape or glue to create a starting line for your course. Do the same with both FINISH strips to create a finish line for the end of your course.

STEP 2 Cut out both barriers (page 2) along the dotted lines. Be careful cutting around the tabs. Fold each barrier in half lengthwise along the solid line. Fold in the base tabs, then tape or glue together. Place barriers along your course.

STEP 3 Cut out the pennant flags (page 3) along the dotted lines. Fold flags in half along the solid line, then unfold blank-side up and place a long string along the middle. Space out the flags along the string, then fold over and tape or glue sides together. Hang banners above your course!
