

HORROR LAND PUMPKIN DIORAMA

Kids, ask a grown-up to help with scissors!

INSTRUCTIONS:

1. With the help of a parent or guardian, carve a pumpkin with a wide opening in front. Clean the inside of the pumpkin as much as possible.
2. Cut out the pieces along the dotted lines. Laminate the pieces using laminating sheets (this will help keep the pieces dry) and then cut out the pieces again. If you don't have laminating sheets, you can use clear packing tape instead.
3. Tape a toothpick to the back of each piece. The background piece may require extra toothpicks.
4. Place the background piece in the pumpkin, then stick the other pieces around the inside of the pumpkin to create a spooky Horror Land diorama. Get creative with extra touches like confetti, glitter, or leaves!
